

General Pharmaceutical Council

Fitness to Practise Committee

Interim Order Review

On papers

10 January 2024

Registrant name: Deenadayalan Krishna Naidu

Registration number: 2053421

Part of the register: Pharmacist

Committee Members: Andrew Lewis (Chair)
Gazala Khan (Registrant member)
Michael Glickman (Lay member)

Secretary: Zainab Mohamad

Interim order being reviewed: Interim conditions of practice order

Outcome: Interim conditions of practice order continued

The conditions imposed on the Registrant's registration are as follows:

- a. You must:
 - tell the GPhC before you take on any position for which you must be registered with the GPhC
 - give the GPhC details of the role and the hours you will work each week, including locum or relief work
 - give the GPhC the contact details of your employer, superintendent pharmacist and/or the pharmacy owner.
- b. You must tell the following people in writing about the restrictions imposed on your pharmacy practice, if you are doing any paid or unpaid work for which you must be registered with the GPhC. You should do this within two weeks of the date this order takes effect (save in the case of chaperones who should be notified orally at the time of the private consultation/examination):
 - All employers or contractors
 - Agents acting on behalf of employers and locum agencies
 - Superintendent pharmacists
 - Responsible pharmacists
 - Line managers
 - Each chaperone who accompanies the registrant at private consultations/examinations

You must send the GPhC a copy of this notification. If you are applying for work, you must tell any prospective employer about the restrictions imposed on your pharmacy practice when you apply.

- c. You must tell the GPhC if you apply for work as a pharmacist or pharmacy technician outside Great Britain.
- d. You must carry out all private consultations and/or examinations involving female patients in the presence of another pharmacist or pharmacy technician registered with the GPhC, or another registered healthcare professional, except in life-threatening emergencies. For the avoidance of doubt, this condition extends to the administration of vaccines in the course of the Registrant's pharmacy business and at vaccination clinics.

If a patient does not want to have the chaperone present you should not proceed.

- e. You must keep a written record, made immediately afterwards, of all private

consultations and/or examinations involving female patients. This must have clear entries of the name, qualification and professional registration number of the chaperone and each entry must be signed and dated by you and the chaperone. You must send this to the GPhC every month, or when we ask for it, and at any review.
