On **24 June 2026** the General Pharmaceutical Council's Investigating Committee considered an allegation in relation to **Miss Adriana Slana, registration number: 2223315** and determined to issue the registrant concerned with a warning in relation to the conduct alleged.

The Committee concluded that the appropriate outcome in this case is a warning with the wording of:

> Miss Slana is a registered pharmacist who, between January and May 2024, was a Superintendent Pharmacist. An inspection identified serious governance and systems failures at the pharmacy at which she was employed, including medicines being supplied without valid prescriptions, inadequate record keeping and medicines compounded without appropriate supervision and without ingredients sourced from approved UK suppliers. As a result, the pharmacy was placed under restrictive conditions.
>
> As Superintendent Pharmacist, Miss Slana was responsible for the overall governance and safe operation of the pharmacy. Her attendance at the pharmacy was limited and, although she identified and raised concerns with management, she failed to take further appropriate action when those concerns were not addressed. This demonstrated a lack of sufficient oversight expected of a Superintendent Pharmacist.
>
> Miss Slana has breached the following GPhC standards for pharmacy professionals:
> Standard 5 - use professional judgement
> Standard 6 – speak up when they have concerns or things go wrong
> Standard 9 – demonstrate leadership
>
> Miss Slana is warned that she must ensure effective governance arrangements are in place and actively assure herself that a pharmacy is operating safely and lawfully. Where serious concerns are identified and not remedied, she must take appropriate and timely action.

Any similar conduct will be likely to result in further regulatory intervention.

This warning will be published on the register and will be available for 12 months.
